SKILLS

- **Languages:** JavaScript, PHP, C++
- **Frameworks:** HTML and CSS, NodeJS, ReactJS, Tailwind
- **Tools/Platforms:** PostgreSQL, Stripe, GitHub, Postman, PgAdmin 4
- **Soft Skills:** Problem Solving, Team Player, Adaptability, Multitasking

PROJECTS

E-commerce website – Selling items online | [Github](#)

Since Oct' 25

- To create a complete shopping workflow, from product discovery to checkout, while implementing secure online payments using Stripe.
 - Led backend development, order processing logic, and Stripe webhook integration, using PostgreSQL transactions to ensure accurate stock deduction and consistent payment records.
 - Gained hands-on mastery of full-stack development, relational database design with Prisma, payment gateway integration, state management in React, and deploying a production-ready application with Tailwind CSS.
- Tech:** HTML, CSS, JavaScript, React.js, Node.js, Stripe, PostgreSQL

Startup Circle – Startup founders and Investors platform | [Github](#)

Jul' 25 - Aug' 25

- To build a dynamic web platform connecting startups with tailored events, allowing users to discover, register, and manage networking sessions, workshops, and pitches in the entrepreneurial space.
 - Contributed to the full-stack build using React for an interactive frontend dashboard, Node.js and Express for robust backend APIs managing event data, and MongoDB for efficient storage of user profiles and details; helped integrate real-time search
 - Gained hands-on experience in team-based full-stack development, scalable API architecture, optimized database handling for dynamic queries, and UX strategies for community platforms
- Tech:** HTML, CSS, JavaScript, PHP, APIs

SUMMER TRAINING

Logic Building – Programming and Data Structures | [Link](#)

Jun' 25 - Jun' 25

- To advance my skills in **Data Structures and Algorithms** through structured learning from basic concepts to advanced techniques.
- Completed intensive training focused on **logic building, programming fundamentals, and Data Structures & Algorithms (DSA)**, strengthening core computer science concepts.
- Solved real-world problems using structured methodologies, **optimized coding techniques**, and **algorithmic thinking**, improving analytical and technical proficiency.

CERTIFICATES

- The Complete Full-stack Web Development Bootcamp by Udemy | [Link](#) Nov' 25
- Responsive Web Development by freeCodeCamp | [Link](#) Sep' 23
- Cloud computing by NPTEL | [Link](#) Nov' 25
- Training in Programming and data structures by Lovely Professional University | [Link](#) Jul' 25

EXTRA-CURRICULAR ACTIVITY

- Participated in Code Off Duty, A 24 Hour Hackathon organised by Student Organisation ECHO | [Link](#) Mar' 24

ACHIEVEMENTS

- Solved 40+ coding problems on GeeksforGeeks, strengthening problem solving. | [Link](#) Oct' 24

EDUCATION

- **Lovely Professional University** Punjab, India
Bachelor of Technology - Computer Science and Engineering; CGPA: 6.9 Since Aug' 23
- **Narayana Junior College** Proddatur, Kadapa
Intermediate; Percentage: 69% Apr' 21 – Mar' 23
- **Gautam High School** Proddatur, Kadapa
Matriculation; Percentage: 100% Apr' 20 - Mar' 21
